

Milica Djurić-Jovičić, PhD

Curriculum Vitae

Contact: ✉ milica.djuric@etf.bg.ac.rs,

EDUCATION DEGREES:

- 2012** PhD in Biomedical Engineering (Department for System Control and Signal Processing), School of Electrical Engineering, University of Belgrade, Serbia.
- PhD thesis: "Inertial sensors signal processing methods for gait analysis of patients with impaired gait pattern", supervised by prof. Dejan Popović.
- 2007** BSc. in Electrical Engineering, School of Electrical Engineering, University of Belgrade, Serbia, Telecommunications and Information Technologies Department.

WORK EXPERIENCE:

- 2014-** **Acting director at Innovation center**, School of Electrical Engineering, University of Belgrade, Belgrade, Serbia. (www.icef.etf.rs)
- 2013-2014** **Deputy director at Innovation center**, School of Electrical Engineering, University of Belgrade, Belgrade, Serbia. (www.icef.etf.rs)
- 2008-2012** **Project manager and lead researcher** for "Wireless sensor system for gait analysis" project. Researcher in the field of motor control and rehabilitation in "Tecnalia Serbia", Belgrade, Serbia.
- 2007-2013** **Research assistant** at Laboratory for Biomedical Instrumentation and Technologies, Department for Signal and systems, School of Electrical Engineering, University of Belgrade, Serbia. (www.bmit.etf.rs)

PUBLICATIONS:

Dr Milica Djurić-Jovičić is the author or co-author of 15 publications in international journals, 3 national journals, 19 international conferences, and 10 national conferences. She is also the reviewer of international scientific journals, such as: IEEE Transactions on Neural Systems and Rehabilitation, IEEE Transactions on Biomedical Engineering, Gait and Posture, Sensors, Medical Engineering and Physics.

Citation: Based on SCOPUS database, **54 citations** excluding the auto-citation of all authors.

International journals:

RnD PROJECTS:

Area	Reference	Position
Health	"Smart Health Technologies and Services for Major Chronic Diseases", funded by Suzhou New District Fund, Suzhou, China, 2016-2018	RnD
IoT, ICT	HUBTECS – Feasibility study for establishing regional digital manufacturing innovation hub for I4MS technologies, for Western Balkans, funded under Horizon2020 research and	PM

	innovation programme, grant #680734, 2016-2017	
ICT Health	“System for interactive therapy and evaluation of children with autism”, National project funded by Serbian Ministry of Education, Science and Technological Development., Innovation project, MPNTR, 2014-2015, 2015-2017.	PM
Health	"Development of strategies for better understanding and quantification of upper limb motor synergies", The program of cooperation between the Republic of Serbia and the Republic of France in the field of scientific and technical research "Pavle Savic". 2014-2015	PM
Health	“The effects of assistive systems in neurorehabilitation of sensory-motor systems”, National project funded by Serbian Ministry of Education, Science and Technological Development. Fundamental research project grant #175016 MPNTR, 2011-2014, 2014-2017	R&D
Health	SENSY -Wireless sensor system for gait analysis, funded by Tecnalía Research Center, San Sebastian, Spain. 2009-2012	PM/ R&D,
Health	“Functional Electrical Therapy (FET) for forming motor patterns after cerebrovascular insult”, National project funded by Serbian Ministry of Education, Science and Technological Development. Technological development project grant #145041, MPNTR, 2008-2010	R&D

EDUCATIONAL PROJECTS:

Duration	Reference	Position
2014-	Life-long learning laboratory , ICEF and ETF, co-founder and project manager of Laboratory for continuous education of engineers,	PM
2009-2011	TEMPUS_JP 144537-2008 , “Curricula Reformation and Harmonization in the Field of Biomedical Engineering”, International project funded by EU.	PM

COMMERCIAL PROJECTS

Area	Reference	Position
ICT	“Software for the central archive register - ARHIS”, client: Archives of Serbia, 2014. (http://www.archives.org.rs/)	PM
ICT	“Web portal STUDENT CAREER”, client: University of Belgrade, 2013.	PM
ICT	“Software for storage and management of data on technical characteristics of motor vehicles and trailers”, client: Road Traffic Safety Agency, 2013. (http://en.abs.gov.rs/)	PM
EM	“Low-profile vehicular multifunction antenna”, client: Dynaflex, Ancona, Italy, 2003 . PI: prof. Antonije Djordjević	R&D
EM	“Subminiature GPS antenna”, client: Dynaflex, Ancona, Italy, 2003 , PI: prof. Antonije Djordjević	R&D
EM	“Automation of layout processing for LTCC devices: Layer manipulation with script”, client: Skyworks, Fremont, CA, 2003 . PI: prof. Antonije Djordjević	R&D
EM	“Automation of layout processing for LTCC devices: Layer separation for proofing”, client: Skyworks, Fremont, CA, 2002 . PI: prof. Antonije Djordjević	R&D
EM	“Measurements and characterization of ultra-fast backplanes for switchers”, client: Motorola, Tucson, AZ, 2002 , PI: prof. Antonije Djordjević	R&D
EM	“Multiband modem antenna”, client: Dynaflex, Ancona, Italy, 2002 , PI: prof. Antonije Djordjević	R&D

* ICT – Informational and communicational technologies; EM – Electromagnetics;
R&D – Researcher and Developer; PM – Project Manager.

TEACHING ACTIVITIES:

2015-2016	“ <i>Gait analysis and human movement</i> ”, course for Malta College for Arts, Science and Technology, Institute of Electrical and Electronics Engineering, Malta, (www.mcast.edu.mt), distant learning module, production: SGM - Solutions & Global Media GmbH, Berlin, Germany (www.sgm-berlin.com).
------------------	---

COMPUTER SKILLS: Matlab, C, HTML, Adobe (Photoshop, Illustrator, Flash, Premier), Corel, Microsoft Office.
